Tips On Password Security

The Metro Detroit Linux Users Group has partnered with the Dearborn Public Library to present a series of technology and computing workshops. The group meets monthly to discuss technology and computing topics. Visit them on the web (http://www.mdlug.org/) or send them an email (president@mdlug.org) for more information.

Saturday, February 28th 12pm-1:30pm

(no registration required)

This workshop will take place in the HFCL Mezzanine Room 30.

Today your security online is a topic of concern to many people. We hear almost daily of companies being hacked and losing customer data. But if you understand how this data is collected and used, and how to create passwords properly, you can make yourself much safer. Presented by Kevin O'Brien of the Metro Detroit Linux Users Group.
